# Capabilities Statement

## Transportation Structures

### Key Team Member Differentiators

Key staff available have over 40 years of engineering experience for bridges, retaining walls, and other transportation projects.

- Project Manager for Design, Plans, Specification, and Estimates (PS&E)
- Construction Inspection and Management

### Experience

- Project Management for Bridge projects range from new, replacement, rehabilitation, widening, strengthening, to seismic retrofit. Concrete, steel, and timber bridges.
- Project Management for Retaining wall projects encompass gravity, cantilever, soil nail, soldier pile/lagging, tie-back, and mechanically stabilized embankment wall systems.
- Experience also includes preparing Bridge Preventative Maintenance Programs (BPMPs) and Scour Plan of Actions (POAs) for various local agencies.
- Experience with funding through the federal Highway Bridge Program (HBP) and current federal "Fixing America's Surface Transportation Act" (FAST Act) and its predecessor "Moving Ahead for Progress in the 21st Century Act" (MAP-21).

### Past performances

- Elvee Drive Bridge Project, City of Salinas, CA
  - Project Management/Lead Project Bridge Engineer
- Elkhorn Slough Pedestrian Trail Bridge Project, Moss Landing, CA
  - Project Management/ Lead Bridge Project Engineer
- Spring Valley Road Bridge Project, Yuba County, CA
  - Project Manager
- Trout Gulch Road Soldier Pile Retaining Wall Project, Santa Cruz County, CA
  - Project Management/Lead Bridge Project Engineer
